**MEMORANDUM OF DECISION
 MOTION TO COMPEL FURTHER RECTIFICATION**

ORDER:

The court has provided a detailed written memorandum of decision with specific findings of fact. The court has also provided articulation to the extent the court found that articulation was appropriate and has denied the plaintiff's second motion for articulation. The plaintiff has indicated that she has obtained a transcript of the hearing at issue. The plaintiff has appealed to the Appellate Court. In response to the plaintiff's motion to compel further rectification, this court finds again that no further articulation or rectification is necessary or appropriate. Accordingly, the court respectfully denies the plaintiff's motion for further rectification.
